Shri S.S. Public Sr. Sec. School,	10 TH	71.50%	2018-2019

SKILLS

•MYSQL • Web Development • Git Hub • Microsoft Office • [Leadership](#)

ACADEMIC PROJECTS

Eagle Bus Ticket

- Eagle Bus is a web-based platform where users can search for buses, select seats and book tickets online with secure payment options.
- It provides tools for administrators to manage bus schedules, routes and bookings.
- The system provides data security and scalability to handle high traffic and is designed to simplify the booking process and enhance user experience.

Tic-Tac-Toe

- Tic-Tac-Toe is a classic two-player game played on a 3x3 grid. Each player alternates placing their symbol—typically an "X" or an "O"—in empty cells.
- The objective is to be the first to align three of their symbols horizontally, vertically, or diagonally.
- The game ends in either a win for one player or a draw if all cells are filled without a winning line.
- It's a simple yet strategic game often used to teach basic concepts of game theory and decision-making.

Number Guessing

- The number guessing game involves a player trying to identify a secret number within a specified range.
- The game randomly selects a number, and the player makes guesses.
- After each guess, feedback indicates if the guess is too high, too low, or correct. The player wins by guessing the number correctly within a set number of attempts.

AWARDS/ PROFESSIONAL CERTIFICATES

- Receive the felicitation award from [Aashayein - The Life Saviours](#) for my contributions to blood donation.
- Receive the Runner-Up award from Jecrc Foundation for runner up in Jecrc Cricket League.
